Daniel Poverjuc
SOWTWARE DEVELOPER

I am a detail-oriented person with a positive mindset. My approach to tasks involves careful attention to ensure accuracy in every aspect. I am open-minded and always eager to learn, embracing challenges as opportunities for personal and professional growth. Additionally, I welcome helpful criticism as an essential tool for continuous improvement. I thrive in dynamic, energetic, and stimulating environments that fuel my passion for growth.

Experience

2023 - PRESENT
Cedacri International
Software Developer

- Worked with Git in a team environment.
- Worked with REST APIs and Spring Batch.
- Proficient in Hibernate, JPA, Spring, Quarkus and Vaadin.
- Learned TypeScript followed by Angular.
- Improved knowledge on best practices.
- Focused on refactoring and clean code principles.
- Utilized MS SQL and PostgreSQL for database operations.
- Demonstrated problem-solving skills in identifying and resolving technical challenges.

2022
International Travel Network
Travel Agent

- Assisted individuals based in the US in planning and organizing domestic and international travel itineraries.
- Provided personalized travel recommendations based on clients' preferences and budget constraints.
- Collaborated with airlines, hotels, and other travel partners to secure reservations and negotiate rates.
- Developed strong relationships with clients based in the US, fostering loyalty and repeat business.
- Utilized Global Distribution System, routinely monitoring competitor fares.
- Improved my English proficiency and enhanced social and negotiating skills.
